KEROL™

A commitment to Excellence

STRENGTH UNDERFOOT

Kerol Turf LLP, established in 2024, is a premium manufacturer of **PVC cushion mats,** committed to quality, durability, comfort, and refined design. With over a decade of experience in the PVC matting industry, we bring strong technical expertise and reliable manufacturing capabilities.

Our products are designed to deliver lasting performance, enhanced safety, and everyday comfort across residential and commercial spaces. We focus on **maintaining consistent quality** and practical designs that meet evolving customer needs.

Backed by a diversified group with experience in **PP Granules, Rexine, Tiles, and Pharmaceuticals,** we combine multi-industry expertise with a quality-first approach to deliver reliable products and build lasting partnerships.

QUALITY

UNDER EVERY STEP.

Key Features of PVC Mats

100% Pure PVC
Made from high-quality, non-recycled PVC for reliable performance.

Anti-Slip Surface
Textured surface offers better grip and safer movement.

Versatile Applications
Ideal for entrances, kitchens, bathrooms, balconies, and other everyday areas.

Water Resistant
Suitable for areas exposed to moisture and everyday spills.

Multiple Backing Options
Available with Spike Backing and Diamond Backing for different applications.

KEROL™
A commitment to Excellence

Explore Our Product Range

Our product range includes six specialized mat solutions, each crafted for specific applications. While Kerol **AeroMat (10mm)** provides superior comfort. For enhanced protection, Kerol **ShieldPro (12mm)** is ideal, while Kerol **EvoDeck (14mm)** ensures durability. Kerol **EnduraPlate (16mm)** and Kerol **HeavyAxis (18mm)** deliver robust performance for industrial and commercial spaces.

For advanced protection, Kerol ShieldPro (12mm) provides extra resilience, and Kerol EvoDeck (14mm) combines style with robust performance. Kerol EnduraPlate (16mm) is built for extreme conditions, delivering unmatched strength, while Kerol HeavyAxis (18mm) stands as our toughest industrial-grade matting solution.

With a commitment to quality and innovation, Kerol Tuf ensures that every product meets high industry standards, offering long-lasting durability and performance.

AeroMat

EVODECK
Engineered for Strength, Designed for Comfort

EnduraPlate
Strong Foundations for Hardworking Spaces

HeavyAxis
Extreme Durabilit Maximum Protection

Flexible & Shock Absorbing
Strong & Durable Backing
Excellent Anti-Slip Grip

KEROL™
A commitment to Excellence

AeroMat

Lightweight Comfort, Heavy Duty Performance

Kerol AeroMat (10mm) offers lightweight, flexible cushioning designed for entryways, patios, and everyday household spaces. Its slim profile provides added comfort without unnecessary bulk, making it easy to place under furniture or in narrow passages. The textured surface delivers dependable grip for daily use and light outdoor traffic. **Lightweight, practical, and stylish**, Kerol AeroMat is an ideal choice for doorways, entrance foyers, and other high-movement areas.

Kerol Aeromat Product Specification 10MM

1. Dimensions & Sizing

Width Options	**1.22 Mtr & 0.61 Mtr (4 ft & 2 ft)**	Ideal for commercial entrances and wider spaces
Length Options	**12 Mtr | 15 Mtr**	Custom lengths available on request

2. Technical Specifications

Thickness	**10 mm (±1 mm)**	Precision thickness for enhanced stability and durability
Weight	**250 gm (±3%) per sq. ft.** **2.65 kg per sq. mtr.**	High-density formulation ensures reliable strength and dimensional stability
Material Composition	**100% Pure PVC**	Non-recycled, odour-free, premium-grade compound

3. Backing Options

Spike Backing	Strong grip for wet areas and high-traffic zones
Diamond Backing	Enhanced comfort with a premium, elegant appearance

Single Colour Shades	Premium, uniform colour options
Dual Colour Shades	Luxury contrast combinations for a distinctive look

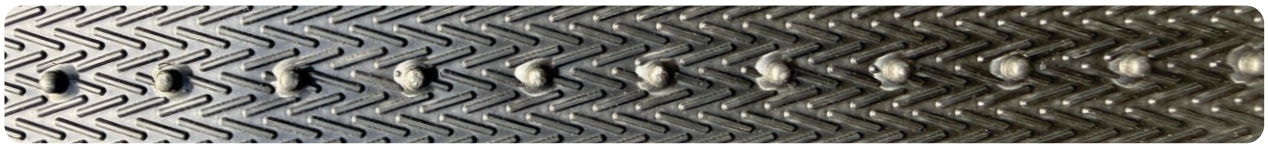

5. Packing & Branding

Packing	Single Roll Plastic Bag Packing
Product Label	Branded Product Lable with Size, Color & Batch Details, etc.

BACKING OPTIONS

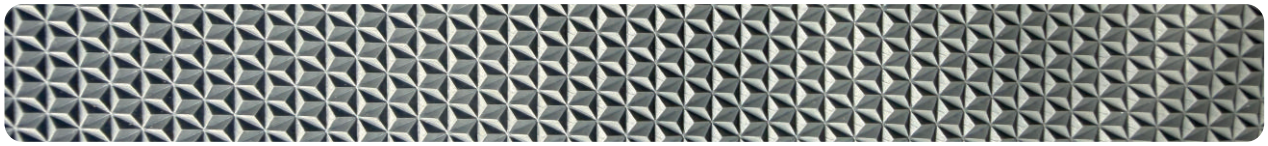

SPIKE BACKING

Designed with a structured **spike-pattern backing** that provides enhanced grip and stability on the floor. The raised texture helps reduce unwanted movement and keeps the mat **securely in place** during everyday use. A practical choice for areas requiring reliable traction and comfortable performance.

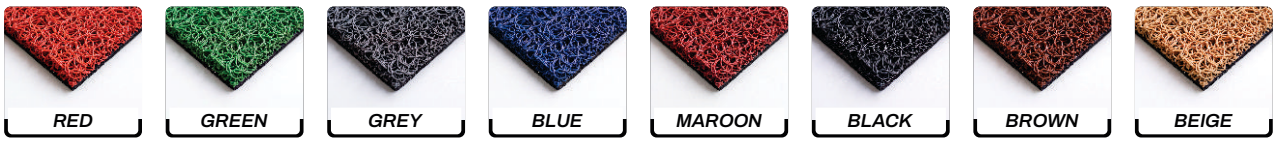

DIAMOND BACKING

Featuring a durable **diamond-pattern backing** engineered for improved grip and stability. The textured surface helps **minimize slipping** and unwanted movement while adding strength and durability to the mat. Ideal for everyday applications where **secure placement** and long-lasting performance are important.
